Monasteries

WE ARE PROUD OF SOME OF THE
MOST FAMOUS MONASTERIES WITH A
HISTORY OF HUNDREDS OF YEARS

SFÂNTA ANA MONASTERY

Sfânta Ana Monastery is 1.5 km away south of the town of Orșova, on the hill of "Dealul Moșului".

The monastery was founded by the great journalist Pamfil Șeicaru (1894-1980) as a thank-you to God for saving his life during the struggles here, in the summer and autumn of 1916.

The construction of the monastery took place between 1936-1939, following a project by architect Ștefan Petemeli.

VODIȚA MONASTERY

Vodița is a monastery located on the valley of Vodita river (about 1 km upstream of the mouth of the Danube), about 15 km west of Drobeta-Turnu Severin. It is among the first monasteries documented in Wallachia, being raised at the expense of voivode Vladislav I (Vlaicu Voda), at the suggestion and effort of the monk Nicodim between 1369-1374.

MRACONIA MONASTERY

It was built in 1523.

His founder was the banner of Severin, Nicolae Gârlișteanu.

It was destroyed during the Russo-Austro-Turkish War (1787-1792), being later rebuilt and demolished by the Communist regime in 1967.

After 1989, the Metropolitan of Oltenia took the initiative to re-establish the Mraconia Monastery, so that in 1993 the foundation stone of the new church was laid, and in 1995 the settlement was re-established - the works were finished in 1999-2000.

Vineyards

IF YOU LIKE WINE AND WANT TO
MEET THE PEOPLE BEHIND THE
VINEYARD AND TRY
TRADITIONAL DISHES
WE INVITE YOU TO DISCOVER
WINERIES FROM MEHEDINTI!

CATLEYA VINEYARD

The name of the Catleya domain is inspired by the novel "In Search of Lost Time", by the great writer Marcel Proust. In Proust's work, Catleya is an orchid that symbolizes love, pleasure and time found.

Catleya exactly reflects the synesthetic experience that the founders of the field want to provoke when tasting wines, because it evokes beauty, pleasure and the intoxicating scent of the flower or a wine.

CORCOVA VINEYARD

Thanks to the gentle Mediterranean climate, viticulture is practiced in from Dacian times. The first documentary attestation of the vineyard is made in a charter in 1497, when Radu the Great gives to Tismana Monastery wine from Jidoștița.

The name of Corcova is mentioned in 1594, by an act issued by Mihai Viteazul, who gave two vineyards to a boyar in the village. The vineyard has gradually grown to reach 55 hectares in 2010, of which 40 are only varieties for red wine.

STÂRMINA VINEYARD

At Stârmina, Turnu Severin, in Mehedinți County, the company Vinarte has a total of 190 hectares. In 2009, an extensive program of modernization of winemaking technologies was completed. Due to its position in the southwestern region of the country, in the immediate vicinity of the Danube, with a climate that benefits from the Mediterranean influence, this vineyard has always produced remarkable wines. Vines are specially designed to produce wines of great character, both red and white.

OPRIȘOR VINEYARDY

In January 2000, Carl Reh Winery became the owner of Oprisor Winery. Step by step, the "Amphitheater" of "Golului Drincei" is replanted with vineyards, covering an area of 250 hectares. In the spring of 2001, Carl Reh Winery launched the first editions of the VAL DUNA and LA CETATE brands on the domestic market.

2008 has brought an important identity change. It was the time for OPRIȘOR Winery to take over and, in the spirit of the father-son relationship, to carry on, developing it, above all, towards the deep values of Oltenia.

NEST WINE CELLAR

Because good food can only be enjoyed in the company of a good wine, our winery is the place where we have gathered wines from all around the world.

Red, white, or rose, dry, semi-sweet, sweet or sparkling, whatever you prefer, at Nest for sure you will find!
